

MONACO CATAMARAN

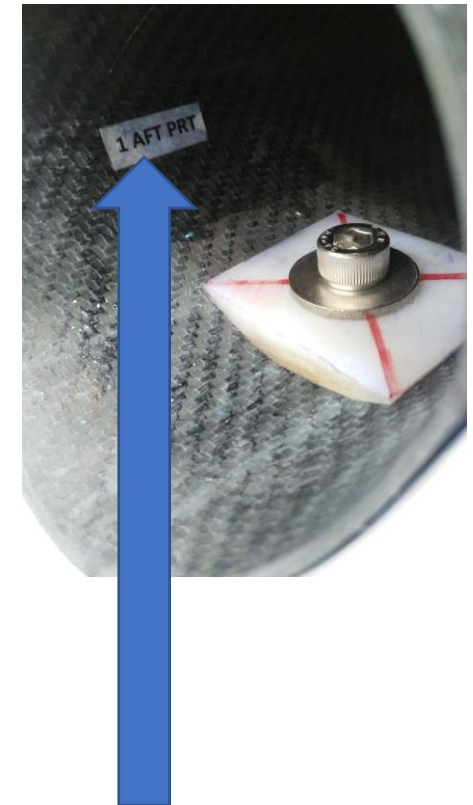

Owner's Assembly Manual

Assembly Parts and Tools

(Tool need for assembly; **not supplied**)

General Boat Assembly

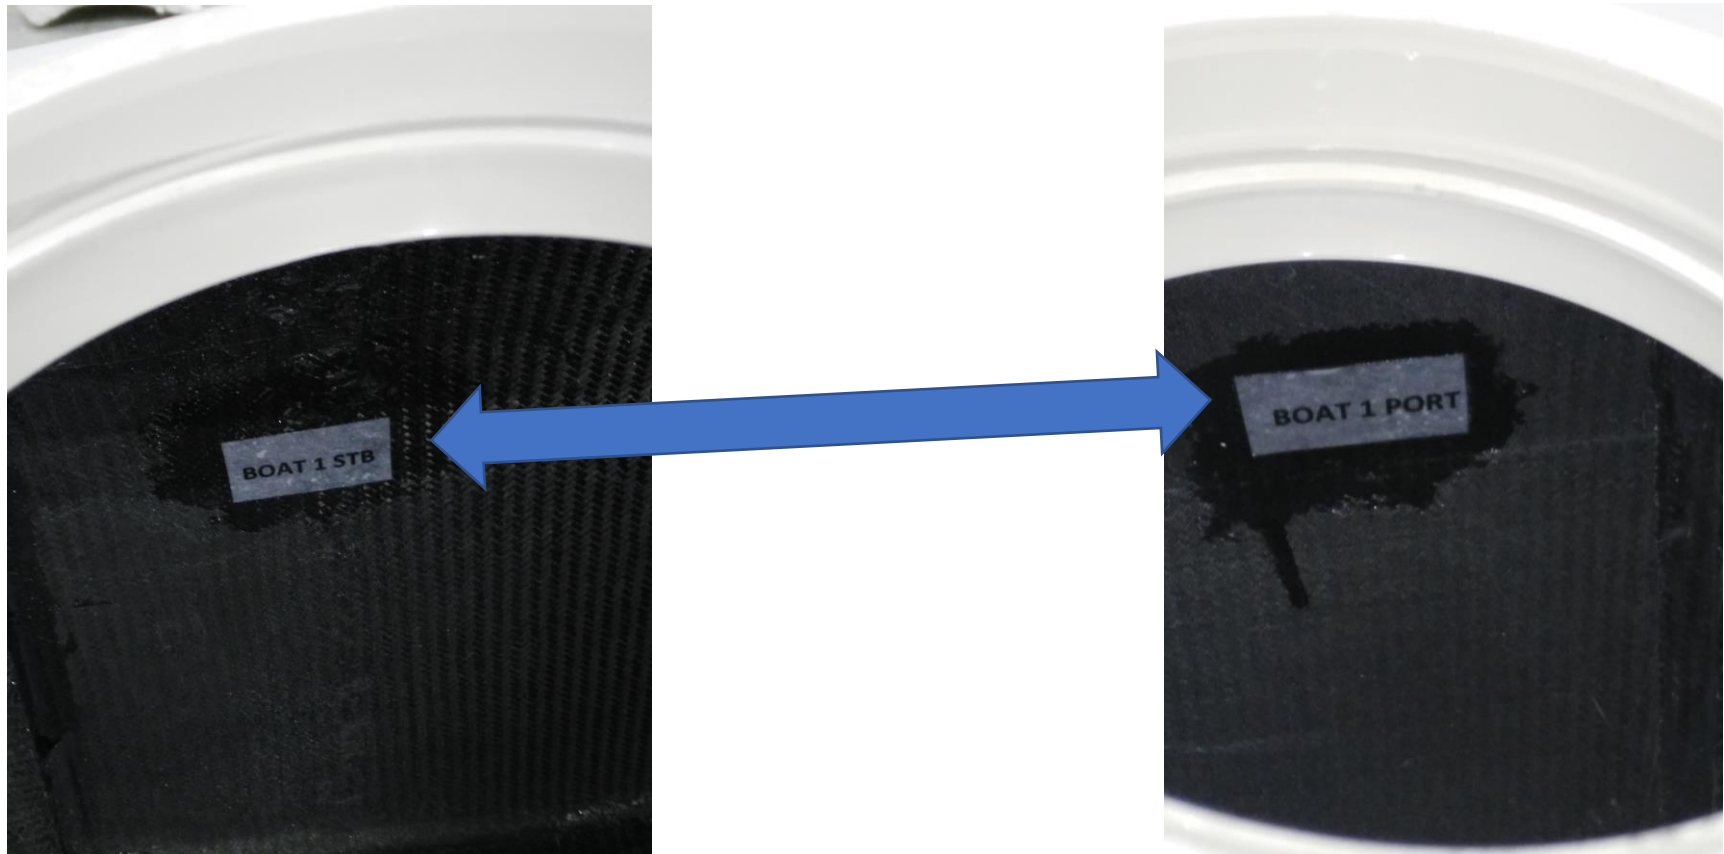

The beams are identified on the inside of the beam for side and for position.

General Boat Assembly

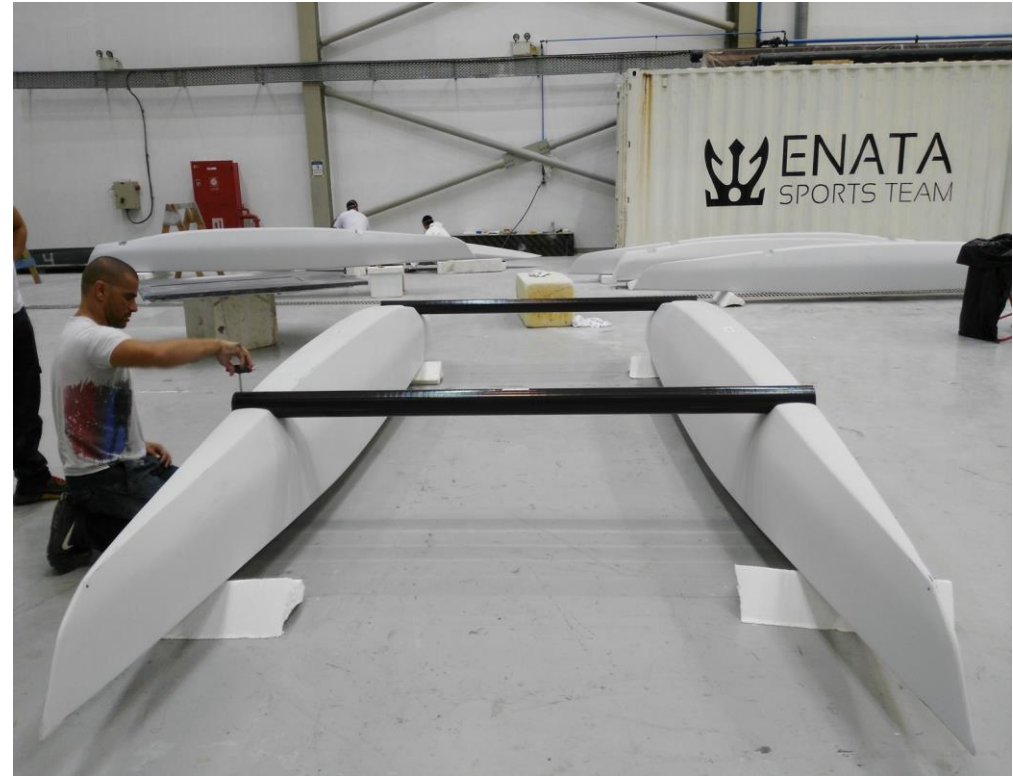

As seen on the pictures the beams have a hole made on the top part, express for easier access of the tool for fastening. **A ribbon of silicon must be applied under the beam and around the bolt hole to insure water tightness !!!** (the use of Loctite and/or Tef Gel is recommended on bolts)

General Boat Assembly

Both hulls have got inside an identification tag for the side that they correspond as shown
